Matter HC/ADM 88/2026 — Harborview Shipping Pte Ltd v Straits Bunker Supplies Pte Ltd

From: Capt. Rajesh Kumar (Ops Director) <rkumar@harborviewshipping.com.sg>

To: Serene Goh <serene.goh@goh-legalpartners.com.sg>

Date: 22 April 2026

Subject: Off-spec bunker fuel - MV Straits Pioneer

Serene,

The bunker fuel delivered by Straits Bunker Supplies on 3 April at Jurong anchorage caused engine fouling on the Straits Pioneer, forcing an unscheduled drydock. Our chief engineer's report puts repair and off-hire losses at approximately USD 340,000.

We suspect Straits Bunker knew the fuel batch failed ISO 8217 sulphur content specs before delivery, based on a conversation our surveyor had with their loading master. We need their internal delivery logs and lab test results for that batch to prove it.

Rajesh

Subject: RE: Off-spec bunker fuel - MV Straits Pioneer

Rajesh,

Received. We've sent a letter of demand plus a voluntary discovery request to Straits Bunker's solicitors, Lo & Chua LLC, for (i) the bunker delivery note and (ii) any independent fuel testing/lab results for the batch loaded on 3 April. They have until 8 May to respond.

If they refuse or stay silent, we'll move for specific production - given the off-hire losses are accruing, I'd suggest we prepare the application papers now in parallel so we can file immediately if needed.

Separately, I understand the charterparty for the next voyage is still being negotiated - happy to take a look at that whenever it's ready, unrelated to this dispute.

Serene
